

## **Bucks County Covid-19 Vaccine for Community Healthcare workers PA DOH Phase 1A only**

As Bucks County works through phase 1A of COVID-19 vaccination, community healthcare workers are encouraged to contact their local hospital FIRST to schedule a vaccine. (contact information provided below) You can submit information for your practice or as an individual. Our hospitals are committed to responding to your request within 48-72 hours. If you are not contacted by your local hospital within 72 hours you can request a vaccine through the Bucks County Department of Health (DOH). The Bucks County DOH will schedule you for a county vaccine clinic when available.

Community Healthcare providers in phase 1A include behavior and physical health providers listed in the PA DOH plan: Nurses, Nursing Assistants, Physician and Dentists, Dental Hygienists, Medical and Dental practice staff, Chiropractors, Therapists, Phlebotomists, Pharmacists, Technicians, Funeral Directors, health profession students and trainees, direct support professionals, clinical personnel in school settings or correctional facilities, and contracted healthcare providers not directly employed by a facility.

**PLEASE ONLY REGISTER AT ONE HOSPITAL LOCATION.** Registering at multiple locations will delay the vaccination process in our community. Vaccination is critical in our fight of COVID-19. Please contact your local hospitals to register for your vaccine ASAP.

### **Doylestown Hospital**

E-mail: [covidvaccine@dh.org](mailto:covidvaccine@dh.org) Please include name, contact information and employer information.

### **Grand View Hospital**
